

Lady Lumley's Academy Prospectus

2025/26

A young boy with short brown hair, wearing a light blue school shirt and a striped tie, is focused on a science experiment. He is wearing clear safety glasses and has his arms crossed on a table. In the background, another student is visible, holding a test tube with a red stopper. The scene is set in a laboratory with various glassware and equipment. The entire image has a blue tint.

Welcome to Lady Lumley's Academy
Rated 'Good' by Ofsted

Dear Parents & Carers

Choosing your child's secondary school is an exciting and important milestone for your family. At Lady Lumley's Academy, we are delighted to offer you all the benefits of a first class 11-18 education.

Provisional data shows that students at Lady Lumley's Academy performed brilliantly in 2025. We are especially proud that 81% of our students achieved pass grades in English and Maths. This is something that students worked really hard to achieve.

If you choose Lady Lumley's Academy for your child, you are not just joining an exceptional school, you'll be taking up a place in a Trust that is determined to broaden horizons and create opportunities and experiences.

The Lady Lumley's Academy experience includes:

- Exceptional Duke of Edinburgh Award Scheme enhanced by an opportunity to attend a residential in the Lake District National Park at the Delta Trust's Outdoor Education Centre at Patterdale on Ullswater;
- The opportunity to continue your study to A Level and Level 3 BTEC and the pathway to University and Higher Level Apprenticeships;
- Access to a variety of educational visits in the UK and abroad;
- Access to sports facilities and participation in town, county and trust wide events;
- Recognition and celebration of students beautiful work, attitude and engagement;

- Fully resourced and funded curriculum resources, including knowledge organisers and bespoke revision guides, as well as access to exceptional online study packages;
- A free uniform pack, including a blazer, trousers/skirt, shirts, tie, and PE kit (sports jersey, lightweight PE top, shorts and socks); Additional supported study and an extended day where needed.

Lady Lumley's Academy is an exceptional academy, led by highly qualified staff, who prioritise every student's academic achievements and personal development to ensure they have the very best start in life.

We look forward to working with you as partners; come and join us and secure a great future for your child.

Free Uniform

We understand that, in some cases, purchasing school uniform can be an expensive outlay with the average cost of compulsory school uniform and sportswear items anywhere between £80 and £100 per student.

That's why we provide all our Year 7 students with a full set of uniform and sports kit for free.

Your child will receive free uniform including a blazer, tie, two shirts, trousers/skirt, sports top, sports shorts and winter top so they can start the term fully kitted out; that's one less thing to worry about!

Our school specific uniform is manufactured to a higher standard than cheaper generic items, and is therefore more durable and lasts longer.

Students also receive planners, knowledge organisers, subscriptions to online learning resources and more for free!

Sharing resources

Our subject specialists develop Key Stage 3 knowledge organisers packed with subject-specific information and active learning tasks for students to complete at home.

With QR codes and links to online resources, including 'Sparx Maths' and 'Languagenut', students' learning extends beyond the classroom and it's all completely FREE.

Common assessments are written by our specialists, and we compare results from across the Trust, meaning we are able to really focus on areas where we identify our students may need more support.

Subject specialists (including qualified examiners) develop GCSE revision guides for many subjects, providing personalised learning and detailed course based content when it really counts.

Working with you

As partners in your child's educational journey, we use outstanding data comparison technology to provide you regular updates on your child's progress:

We use Common Assessments

- Students in Year 7 to Year 9 across all academies, take key stage 3 assessments in English, mathematics, science, geography, history, modern foreign languages, and computing twice a year.
- These assessments are designed by in-house subject experts such as linguists, authors, physicists and mathematicians that test the knowledge, skills and understanding students have acquired and retained in their learning since the beginning of the academic year.
- Students receive their marked assessments along with a record of their strengths and weaknesses, and they can download mark schemes to identify their own areas for improvement. These mark schemes are also available to you, allowing you to review them and gain a clear understanding of your child's progress.

Regular reporting to partners

You, as partners, receive a student report twice a year (January and July) that provides an overview of performance in key stage 3 assessments, predicted grades and target grades in key stage 4, and an effort grade in all subjects.

Reports are available online through the Parent App and provide information on:

- Each assessment (December and June) completed by students up to that point in the academic year.
- The Progress of your child in line with expectations.

John Example (7A)
Interim Pupil Report – January 2020

ATTENDANCE AND PUNCTUALITY (since September)	
Attendance	
Authorised absences	94.8%
Unauthorised absences	19
Number of late sessions	0
Key Stage 2 Reading scaled score	7
Key Stage 2 Maths scaled score	110
Key Stage 2 Average scaled score	110

English
Since September we have read a wide range of fiction and non-fiction, including in particular whole books, short stories, poems and plays with a wide coverage of genres, historical periods, forms and authors, including high-quality works from English literature, both pre-1914 and contemporary, including prose, poetry and drama; Shakespeare (2 plays) and seminal world literature

Effort: **Outstanding**
Assessment: **75%**

Mathematics
Since September we have consolidated their numerical and mathematical capability from key stage 2 and extend their understanding of the number system and place value to include decimals, fractions, powers and roots. Learned how to elect and use appropriate calculation strategies to solve increasingly complex problems. Used algebra to generalise the structure of arithmetic, including to formulate mathematical relationships.

Effort: **Outstanding**
Assessment: **75%**

Science
Since September we developed scientific knowledge and conceptual understanding through the specific disciplines of biology, chemistry and physics. Developed understanding of the nature, processes and methods of science through different types of science enquiries that help them to answer scientific questions about the world around them.

Effort: **Outstanding**
Assessment: **75%**

Predicted grade is equal to or above the target grade.
Predicted grade is one grade below the target grade.
Predicted grade is more than one grade below the target grade.

English *curriculum*

**86% of students achieved
Grade 4 or above in English**

A Bespoke Curriculum

Our bespoke curriculum strategies include: Ruth Miskin Fresh Start programme, small group or one-to-one support, the Lexia software package, Rapid Plus, word consciousness in every lesson (focussing on understanding language), word of the week subject-specific vocabulary, reciprocal reading and other support programmes. In addition, we also aim to challenge our high-level readers through a range of activities such as book and debate clubs.

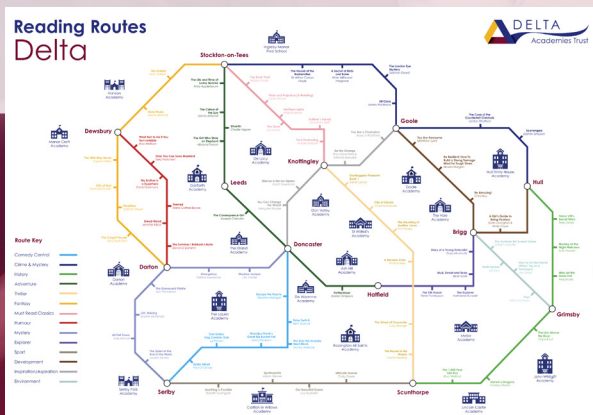

Competitions and Events

Students in Years 7 and 8 can participate in annual poetry events. These events often feature guest authors and special visitors, providing inspiration and a chance to meet literary heroes. Aspiring young writers can test their skills in national writing competitions, offering a platform to showcase talent and potentially gain recognition on a national scale.

Reading Routes

We are passionate about igniting a love of reading in our students. That's why we launched "Reading Routes," a programme designed to encourage reading for pleasure. Students embark on a journey through nine exciting genres, like Crime & Mystery or Fantasy, choosing from six books each term.

Reading Routes goes beyond the typical curriculum. There are even specialised routes for students to explore their interests in areas like Sports or the Environment. With over 74 books on the "map," students are sure to find something that sparks their imagination and fosters a lifelong love of reading.

**81% of students achieved
Grade 4+ or above in Maths**

Mathematics

curriculum

Our mathematics curriculum fosters a deep understanding and appreciation for this beautiful subject. It equips students with the essential skills to understand the world around them, from science and technology to everyday life. Develop critical thinking through problem-solving activities that encourage exploration and embrace 'wrong turns' as valuable learning steps. We believe everyone can excel in mathematics.

The Delta mathematics curriculum seamlessly progresses from Key Stage 2, building a strong foundation for further education and future careers. We utilise the Sparx online platform to solidify learning and propel students towards mastery. We offer exciting extracurricular activities like enrichment trips and the National Mathematical Challenge. High-performing students can even pursue the Further Mathematics GCSE qualification.

Trust-wide Events

Students have the opportunity to participate in relays, quizzes, and workshops on calculator tips, formula sheet usage, and mastering those maffles and triangles.

Sparx Maths: *effective for all students*

Sparx Maths helps students from disadvantaged backgrounds progress at the same rate as other students.

Science

curriculum

A Roadmap to Success

Our meticulously planned curriculum adheres to the national curriculum for Key Stage 3 and seamlessly aligns with the AQA specifications for either GCSE Double or Triple Science. Rooted in the latest research and recognised by Ofsted, our Science Curriculum provides a solid foundation.

Unleashing Inner Scientists

Delta celebrates science throughout the year with exciting themed events like "Space Week", "Brain Day" and "World Bee Day." These wider curriculum lessons spark curiosity and broaden scientific horizons. Students also participate in our termly science competitions.

Nurturing Future STEM Leaders

Delta offers an after-school STEM club, featuring activities around Science, Technology, Engineering, and Mathematics. Year 9 students can also get involved in Lego Robotics, participating in both regional and national competitions.

Mavericks

High-achieving students in Years 9, 10, and 11 may be selected for the prestigious "Science Mavericks" event. Collaborate with Delta students from other academies to tackle real-world scientific challenges, exploring topics like the future of earth and the possibility of terraforming celestial bodies.

EPC

curriculum

EPC, or Ethics, Philosophy and Citizenship, is a five-year curriculum, tailored to equip pupils with the knowledge, skills and understanding needed to play their part in an ever changing world of the 21st century.

We place social and personal development at the heart of our design, with group discussion, self-expression and the promotion of tolerance and respect towards the opinions of others assessed in each unit of work. Providing opportunities for pupils to develop confidence, resilience and knowledge to stay mentally and physically healthy are also included and developed in topics such as 'Physical health and fitness' and 'Healthy relationships'.

Preparing our pupils for life after school

A mixture of tutor time activities and 'step up days' provide opportunities for work experience, employer contact and Enterprise Education. encounters with employers at Careers Fair in school, provide opportunities for students to engage with what their future could look like and we provide opportunities which enable all students to make informed choices about their future through Life lessons and our careers advisor.

MFL

curriculum

Your Bridge to a World of Opportunity

We believe every student should have the chance to explore the world through languages. Learning a modern foreign language (MFL) is more than memorising vocabulary – it's a journey of cultural discovery and personal growth.

Our vision is to broaden horizons, helping students develop new perspectives on the world as they step beyond familiar boundaries, sometimes literally as they step off a plane in sunny France. We aim to enable students to express themselves confidently in another language and converse with native speakers. These skills will become life skills for the future, allowing students to navigate practical situations, learn new ways of thinking, and appreciate diverse cultural expressions.

The Delta MFL curriculum emphasises core grammar, vocabulary, and phonics, equipping students with a solid foundation for all four language skills: listening, speaking, reading, and writing. As they progress, students will revisit and deepen their understanding of key concepts, building fluency and accuracy. With at least one modern languages assistant in every academy.

We believe in fostering confidence and independence as a language learner. Our curriculum is designed to empower students to tackle new challenges and succeed in the MFL world.

The Arts

curriculum

Art and Photography

Igniting Creativity

Everyone is an artist.

Art at Lady Lumley's celebrates creativity. We build upon the critical skills of observation and research, broadening and refining responses. Emphasis is placed on trying and failing as an integral part of the creative process.

Links with artists and craftspeople as well as planning and making, are essential. Trips to the Yorkshire Sculpture Park, the Liverpool Biennial and Paris, broaden horizons and expand perspectives.

Lady Lumley's robust and successful GCSE and A level art and photography courses develop inquisitive thinkers who can express original ideas in a multiplicity of ways. Our students excel in their examination results.

Our bespoke art spaces include a 6th form studio space, IT suite and spacious, designated classrooms to enable students to work with a wide range of media.

Our art curriculum focuses on honing drawing, painting, mixed media and photography techniques alongside challenging students to think, observe and question: to see new possibilities.

Music curriculum

Education is more than Academic Achievement

Music is more than just notes on a page. It's a vibrant journey of exploration, performance, and personal growth. Our curriculum is designed to nurture a lifelong love of music in every student.

Music fosters social connections, boosts enjoyment, and provides a foundation for lifelong participation in music, regardless of any potential career path. Whether it's pursuing music professionally or simply enjoying it for fun, Delta's music curriculum equips students with the skills and appreciation to enrich their lives with music.

Our curriculum emphasises hands-on learning, equipping students with the skills to sing, play instruments, and participate in musical activities. Delve into the world of music through active and passive listening, exploring a variety of sounds and genres. Learn to play simple melodic instruments and percussion, building confidence and musical expression.

The music curriculum is hands-on, practical and progressive. Skills learnt in Year 7 are still essential in Year 13! Pupils create, perform, practise, devise and actively listen in a large variety of styles and genres widening cultural understanding. This is complemented by high quality performance opportunities with ensembles such as the well-established department 'Midnight Fusion Jazz Band' and Voce Choir.

Pupils can also form their own ensembles and book department facilities to rehearse. The Music Hub also offers lessons in school on more than 10 different instruments and voice. Our partnership with Leeds Conservatoire Music Futures and Music Mark offers pupils wider participation opportunities in world-class facilities.

Our Charity: *Delta Academies Charitable Trust*

Through our charity, a student received funding for piano lessons. She was later invited to the 'Top 100 Global Child Prodigy 2020' awards in India.

Drama

curriculum

Drama

Drama at Lady Lumley's is about:

Performance; specifically live performance. We are theatre-makers, we tell stories and entertain. We explore the world around us by stepping into the shoes of others and looking at things from a new angle. We take inspiration from life; from plays, pictures, music, poetry and the issues we encounter every day.

Working with others; we rehearse, we listen, we share. We take collective responsibility for our work and encourage everyone to take part and contribute. Together we can be great.

Acting; we develop skills to transform ourselves in order to engage our audiences. We are artists, creating emotion and transforming the space we are in.

Life; it's about our own lives, past, present and future. It's about the lives of others. It's about the ability for a piece of theatre, a story, or even a warm-up to move us and give us a live experience shared with others.

Humanities

curriculum

Explore, Analyse, and Understand Our World

Our geography curriculum is designed to ignite curiosity and wonder about the world around you. Students explore both human and physical aspects of geography, examining themes like sustainability, development, globalisation, and climate change. Cartographic, graphical, ICT and GIS skills will make students proficient in analysing geographical data. Apply knowledge in real-world settings through exciting fieldwork trips. These immersive experiences range from local investigations to residential adventures like the Patterdale trip.

During this trip, students conduct a river study in Mungrisdale, explore flood management strategies in Keswick, visit Aira Force waterfall, and even embark on a scenic cruise of Lake Windermere, England's longest lake. The journey culminates in a challenging climb up Orrest Head, with spectacular views.

Other exciting trips include:

- Year 7 students participating in infiltration investigations
- Year 8 tackling micro-climate investigations
- Year 9 embarking on a river trip
- Year 10 and 11 completing coastal management enquiries in Hornsea, exploring housing quality
- Year 12 and 13 undertake coastal fieldwork looking at a clone town at Northallerton. They also visit the Lake District for geographical enquiries into the water and carbon cycle.

Our History curriculum empowers students to think critically about the world they live in. Here's what sets us apart:

Questioning the Past: We encourage students to analyse historical events and perspectives, fostering independent thinking beyond 'received wisdom'. Don't just accept information at face value – learn to question and examine evidence.

Global Context: Move beyond a solely British perspective. Students explore a variety of cultures and historical events on a local, national, and international scale, from Ancient times to the Modern era. This global awareness is crucial for understanding the interconnectedness of our world.

Building Historical Worlds: Immerse yourself in different historical periods through engaging activities like "building worlds" in your mind. Historical fiction becomes a springboard for exploration, igniting curiosity and sparking questions about the past.

Diverse Voices: Encounter a range of historical figures and perspectives, gaining a well-rounded understanding of the past. Learn about the world from the viewpoints of people from all walks of life.

Sport

curriculum

Whether you plan on becoming an elite athlete or simply enjoy staying active, we have something for you! Our PE curriculum aims to inspire students to become physically confident and build resilience so that each student is equipped to lead a healthy, active lifestyle.

Lady Lumley's Academy boasts excellent sporting facilities such as large indoor sports hall, indoor climbing wall, gym, fitness suite, floodlit astro turf, floodlit netball courts and a large multi-purpose sports field.

Examples of the activities we offer include team sports such as cricket, football, handball, hockey, lacrosse, netball, badminton, climbing, dance, fitness, gymnastics, table tennis and tennis. Furthermore we can now utilise Delta Trust Outdoor Centres in the Lake District and North Yorkshire. At these centres students can choose to take part in mountain biking, canoeing, rock climbing, hill walking and abseiling.

We encourage all students to represent the academy in one of the many clubs and teams which are available. The academy uses top coaches and local links to develop students and give them opportunities to play at a higher level. Students have the opportunity to work alongside the School Games Organiser as sports leaders, where they can develop leadership skills by organising and officiating events, such as primary school festivals.

There is no surprise that our students go on to achieve outstanding results at both GCSE and sixth form level. Many go on to have successful careers in sports and leisure industries.

Our Charity: Delta Academies Charitable Trust

Through our charity, a student received funding to represent Britain at the World Youth Championships for Bouldering in 2023.

The Duke of Edinburgh's Award

We are proud to champion the transformative power of the Duke of Edinburgh's Award (DofE). This prestigious programme equips young people across our academies with essential skills and experiences that set them up for success in all aspects of life.

The DofE programme goes beyond traditional education, fostering a holistic development that benefits students in numerous ways:

- Learning new skills ignites passions and talents.
- Regular physical activity fosters a healthy lifestyle.
- Volunteering builds responsibility and community spirit.
- Overcoming challenges builds resilience and confidence.
- Teamwork and leadership skills develop through expeditions.
- The DofE Award is recognised by universities and employers.
- Strong social skills and lasting friendships are fostered.
- DofE activities enhance mental well-being and cultural awareness.

There are four sections to complete at Bronze and Silver level and five at Gold. They involve helping the community/environment, becoming fitter and healthier, developing new skills, planning, training for and completing an expedition and, for Gold only, working with a team on a residential activity.

Achieving an award isn't a competition or about being first, it's about setting personal challenges and pushing personal boundaries.

Dallowgill

outdoor enrichment

Unforgettable Environmental Learning at Dallowgill

We stand out as an organisation because we provide every child with life changing experiences irrespective of their starting point in life. A cornerstone of this commitment is the Trust's very own Environmental and Outdoor Education Centre. Nestled in the heart of the Yorkshire Dales' Area of Outstanding Natural Beauty, Dallowgill offers a transformative educational experience unlike any other in the region.

This state-of-the-art facility isn't just about stunning scenery. Dallowgill provides a hands-on learning environment where students develop a lifelong connection with the natural world. Through activities like den building, habitat exploration, and environmental art projects, students gain a deeper understanding of ecology and sustainability principles.

A Commitment to Accessibility and Opportunity

Since opening in 2021, thousands of children have enjoyed a residential experience at Dallowgill. We have also purchased a nearby church for additional activity space.

Removing Barriers to Learning

We understand that financial constraints shouldn't hinder educational opportunities. That's why the Trust provides an on-site coach to transport students between academies and Dallowgill, eliminating the cost burdens often associated with residential trips.

Patterdale

outdoor enrichment

Expanding Horizons

Building on our success of Dallowgill, we have acquired another Outdoor Education Centre in the Lake District National Park. This exciting addition to the Delta experience provides students with even greater opportunities for transformative outdoor learning experiences.

A Landscape of Adventure

Nestled amidst breathtaking scenery, Patterdale offers a unique opportunity for students to delve deeper into adventurous activities. Imagine scaling iconic peaks like Helvellyn via Striding Edge, exploring the shores of Ullswater, or encountering diverse wildlife in the centre's four-acre haven, complete with a river, wetlands, and rare birds. Patterdale is designed to ignite a passion for the outdoors and inspire a sense of adventure in every student.

To maximise learning opportunities, we plan to construct a permanent observatory at Patterdale, harnessing the wonders of the night sky.

Memorable Experiences, Lifelong Impact

Patterdale promises unforgettable experiences that will leave a lasting impact. Students return with stories of personal growth, new-found confidence, and a deeper connection with the natural world. We are committed to fostering these transformative experiences for all our students.

By embracing the opportunities offered by Patterdale, our Trust plays a vital role in shaping well-rounded, environmentally conscious young people.

Cyber North

digital defence

This immersive annual event, co-organised by Delta and Northern Education Trust, is designed to introduce students to the ever-growing field of cyber security.

Why Cyber Security Matters

In today's digital age, where everyone relies on computers and the internet, cyber security is more important than ever. Cyber North equips students with the knowledge and skills to protect themselves from online threats like identity theft, financial fraud, and more.

Engaging Activities and Friendly Competition

The event features a variety of engaging activities that put students' problem-solving skills to the test. They are reimagined as digital detectives, cracking codes, analysing evidence, and bringing cyber criminals to justice. There's even a healthy dose of friendly competition between participating schools, making the experience more exciting.

Building a Brighter Future

Cyber North goes beyond just raising awareness. It empowers students to take control of their digital safety and explore potential careers in the booming cyber security field. By participating in this event, students gain valuable insights into this critical field and discover if a cyber security career path might be the perfect fit.

Trust-wide Events

A photograph of four students in school uniforms. In the foreground, a girl with long brown hair is smiling broadly, looking towards the left. To her left, another girl is laughing with her mouth open. In the background, a boy in a dark suit and striped tie is looking towards the camera, and another girl is partially visible on the right. The image has a blue overlay.

The Ofsted inspection team, in 2024, reported that:

"The motto at Lady Lumley's School is 'be our best'. This is promoted throughout the school, including academic studies and pupils' wider personal development."

"Students in the sixth form are proud to be at Lady Lumley's. They value the positive relationships that they have with staff. One student told the inspectors, 'It is like being part of a family'. This comment was typical of many others."

Community Aspiration

Our Academy Values

Lady Lumley's Academy is driven by the vision of 'Being our best'. All staff and all students are asked to commit to our core values:

LEARNING

Lady Lumley's core purpose is supporting our students and staff to make progress and continually adapt and develop to become lifelong learners.

LEADING

Students and staff have regular opportunities to lead within and outside of the classroom to improve themselves and the community.

AMBITION

We are relentlessly positive about improving and see all mistakes as ways to learn and improve and exceed our potential.

PROGRESS

The journey through Lady Lumley's for staff and students in journey of improvement. Through striving to be our best we will face some setbacks but will build progress over time.

Resilience Excellence

Sixth Form

A broad curriculum offers choice and suitable pathways beyond sixth form. High quality teaching and learning is aided by smaller class sizes for a more personalised learning experience. Students' broader development is harnessed by daily tutoring and weekly 'life' lessons; preparing well for students to contribute brilliantly to the world of tomorrow. We also work hard together to develop students' academic habits. Our sixth form runs on a belief that students immediately after GCSEs need support in bridging the gap to a higher level of learning. Independent study strategies are taught explicitly to help students become effective learners outside of the classroom, as well as in.

Positioned near the glorious North Yorkshire Moors, weekly enrichment includes the Gold Duke of Edinburgh Award, culminating with a trip to Buckingham Palace! Sport, art, debating, online learning courses, TED talks, essay competitions and wider reading are just some of the many activities students undertake. To accompany this, the Aspire Group focuses on higher level critical thinking, helping students prepare for research-led universities and higher level degree apprenticeships. Student leadership is developed through multiple avenues, including mentoring younger students, helping the lower school tutor read programme and running the sixth form committee. The EPQ project offers students a chance to further boost their qualifications portfolio by half an A' Level with an independent project on a topic of their choice, brilliantly developing research and project management skills along the way.

A sixth form that has academic excellence, personal development and student wellbeing at its core

Careers Education

As a Trust we understand that everyone's career path is personal and also adapts over time. As a result, we offer an extensive range of guidance and opportunities that start from Year 7 and adjust to meet changing aspirations throughout.

All students are given the opportunity to engage with colleges, universities and workplaces, and experience first-hand potential routes for them. Students are given access to a large range of potential employers who visit through scheduled lunchtimes and breaktimes, along with careers fairs events.

Whether your child is interested in the world of work or further academic study, they will be guided and supported to make a decision that is right for them. We are proud to work with multiple partners such as the CU Scarborough and the NHS, all of who allow students to think widely and deeply about how they would like their careers after school to progress.

Entrepreneurship is something we also hold dear and our Academy is the proud champion of the Delta Wings competition.

All our students have regular access to an independent careers advisor who will guide them via informal chats about career paths as well as by more formal scheduled careers appointments.

Many employees work with students within the academy to help them prepare applications, practise interviews and develop the skills they need to secure their preferred route.

Lady Lumley's Academy is working towards recognition of it's excellent careers education supporting students

in some of the most aspirational career routes available for young adults and helping them embark on exciting, unlimited career paths.

Personal Development

Our curriculum is designed to improve learners' self-esteem while developing higher aspirations in both current academic situations and in pursuing long term careers

What can Year 7 expect?

Choir

LGBT+ Club

Lego Club

Musical Club

Chess Club

...and more!

Everyone is *included*

At Lady Lumley's Academy we are ambitious for all students. We have high expectations that everyone will excel, regardless of starting points. Our most recent report from Ofsted recognised that **"Pupils behave well in lessons and there is a calm atmosphere in classrooms and at social times."** We support students to understand and apply their learning and achieve well.

We understand that some young people will require additional support for part or all of their time with us. If your child is identified as having SEND they will have a bespoke Learning Passport, which identifies strategies teachers and support staff should use in order to support them to achieve their full potential.

The Learning Passport will be written in partnership with you and your child, and reviewed on a termly basis to ensure we continue to support your child's progress, both academically and pastorally.

Dedicated staff members

We have a dedicated team of support staff led by our Special Educational Needs Coordinator. Together they strive to provide the best for students with additional needs including delivering a range of bespoke interventions.

The SENCO works closely with the local primary schools and the local authority to ensure that students are effectively supported during their transition to us from our local primary schools.

A photograph of two students in a chemistry laboratory. The student in the foreground is a boy with brown hair, wearing a dark suit, a white shirt, and a blue and white striped tie. He is also wearing clear safety goggles and is holding a round-bottom flask containing a dark liquid, which he is presenting towards the camera. Behind him, a girl with blonde hair in pigtails is also wearing safety goggles and a dark lab coat. She is holding a round-bottom flask containing an orange liquid. The background shows a typical school laboratory setting with a tiled ceiling and some lab equipment. The entire image has a blue tint.

So, what are you waiting for?
Choose Lady Lumley's Academy.

A young woman with a warm smile, wearing a black hijab and black-rimmed glasses, is holding a blue folder. She is looking slightly to the right of the camera. The background is a blurred indoor setting with other people and architectural elements. A semi-transparent blue triangle is positioned in the bottom right corner, serving as a background for the text.
